Production Guidelines

1. Please send us clear, well-lit high-resolution images of your loved ones.
2. For baby prints we suggest sending several close-up pictures, so the artist can pick the one that best fits with the design.
3. For Walking With Jesus prints, send standing or walking images and we can adjust how they blend in with Jesus for realism. Multiple picture options are always suggested and please try to avoid complex backgrounds or heavy shadows.
4. For outdoor pictures please avoid bright sunlight, as people tend to squint, and this makes it hard for the artist to capture the detail in their eyes.
5. Written descriptions of eye and hair color as well as skin tone are helpful if you think that the photos may not make that clear to the artist.

We look forward to creating a memorable piece of artwork for you and your family
